Carla Coccia

Paris School of Economics | carla.coccia@psemail.eu | ORCID

Development economist focusing on education and policy evaluation in low- and middle-income countries. Research on learning, school progression, and local public goods provision, with an interest in what makes policy interventions effective and their impacts sustainable. I use field experiments and innovative measurement approaches, including item response theory and machine learning, to improve the assessment and comparability of outcomes across contexts.

EDUCATION

PhD Economics (Education Policy & Development), University of Bern — 2021–2026
Advisor: Prof. Dr. Aymo Brunetti
